### WORMS EASILY REMOVED.
### *Winer's Canadian Vermifuge.*

HUNDREDS OF CHILDREN DIE every year from the disease produced by Worms. They are the cause of numerous and frightful diseases, and there is scarcely a complaint common to infancy and childhood which may not be produced or greatly aggravated by the presence of these destructive animals in the stomach and bowels. Cases are recorded of their producing St Vitus's Dance, Locked Jaw, Dropsy, Squinting, Loss of Feeling in the Limbs, Rickets, Palpitation of the Heart, Eruptions, Dry Cough, Severe Pains, Paleness, Emaciation, total Decline of Strength and consumption. They consume all the nourishment in the body, and finally destroy the child.

WINER'S CANADIAN VERMIFUGE is a pleasant, safe, speedy and permanent cure for this dangerous affection. It has been faithfully tried, and is universally approved of even by Physicians. It destroys the worms at once, dissolves and carries off the slime which forms the nest of worms, and greatly improves and invigorates the system. It is the most perfect thing of the kind ever invented, and no family should be without it.

P S Parents may be assured that this medicine is perfectly harmless in all its effects. It is carefully compounded, of the very best materials, and there is not the least danger in using it.

Price only 25 cts per bottle.

### The Sugar-Coated Pills.
### A NEW SARSAPARILLA PREPARATION.
**To cure Diseases, Purify the Blood! To avoid them, keep it pure!!**

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders proceeds directly or indirectly from a morbid state of the system caused by

**IMPURE BLOOD.**

HALSEY'S SUGAR-COATED MAGIC LIFE PILLS. The originator of the only true and genuine Sugar Coated Pills most respectfully informs the enlightened public, that his new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, New York.—Price 25 cents a single box, 5 boxes for one dollar.

G W LADD, Agent for Bangor.

Among the numerous remedies which stand reputable on the basis of an ancient name are none perhaps which have secured so great celebrity, and extensive use in so short a time as this invaluable article.—They have gained their high reputation, alone by their good works. Those who once try them always use them again. They are grateful to the stomach,—they improve the functions of secretion, nutrition and circulation. They restore vigor and appetite, and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation. The experience of thousands attest to their good effects. After using them for a short time, the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system. His digestive organs perform their proper functions; his blood regains its wonted purity; the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its energy and vivacity and clearness. Such are the results produced by Halsey's Sugar coated Pills, the mildest, yet most effectual preparation of the class in use.

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results. For Sores, Boils, Salt Rheum, Fever, Erysipelas, Eruptions of the Skin, Scrofulous complaints, and many other like diseases arising from IMPURE BLOOD they have become highly celebrated. Hundreds of certificates have been received from individuals who after having taken them for a few weeks, according to the directions which accompany the box, were cured of the most afflicting cases of *scrofulous affections*. They give *Good Blood for Bad*. Bottles of the boasted Sarsaparilla contain less of the true virtues of this valuable plant and are less effectual than a single box of these extraordinary Pills. In Colds, Coughs, Influenza, Sore Throat, Headache, Giddiness, &c, they are recommended with entire confidence, the relief in these cases is quick and permanent. For Fever and Ague, Fevers, Asthma, Piles, Loss of Appetite, Dropsy, Jaundice, Worms, Lowness, General Debility, and many of the various other diseases to which the human system is liable, they have proved an infallible remedy. Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness, yet they are searching and efficient. It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference. The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexpected change wrought in his health bear testimony to their uncommon virtues.

N B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding that they are the original sugar coated pills. The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste. Yet individuals of no integrity have counterfeited other pills, coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the ready acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills*. In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents.

### *A WONDER!*
*No more White, Red or Grey Hair!*

A REMEDY which enhances considerably the beauty and alters the appearance of the countenance from that which is much disliked. It is pleasing to have sufficient means to remove these defects. To effect this change of hair so much wished for is the grand never failing property of JULES HAUEL'S VEGETABLE LIQUID HAIR DYE, which the proprietor, with justice states is far beyond anything of the kind ever yet known in this or any other country. Its properties are very powerful, though very innocent. The chemical result—a wonder—it enables persons to dye instantaneously their hair without the least inconvenience. For changing red or grey Hair, Whiskers, Eyebrows, &c to a Brown, Black or Chestnut color. The slightest evil consequences may not be feared from its use—it is altogether harmless. The compound is the only one sanctioned by the science of Chemistry to dye, in an indelible manner, the various gradations of colors, without danger or inconvenience, and has just had the liberal patronage and unlimited confidence of the public. If black is required, ask for box marked N, if brown, box marked B.

Beware of counterfeits. Ask for "Jules Hauel's Vegetable Liquid Hair Dye" if you want the genuine article.

### RUST PROOF IRON
FOR
*ROOFING WINDOW SHUTTERS, &c.*

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metals and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc &c, or any other metal now used for roofing and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more.

The subscriber would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c. they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe) constantly on hand from 16 to 32 wire guage.
GEO B MOREWOOD & CO
Nos. 14 and 16 Beaver st, New York.

The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise.

### FOSTER'S
### MOUNTAIN COMPOUND!
### FOR THE HAIR.
IS AN ARTICLE IN WHICH THE PUBLIC MAY PLACE THE UTMOST CONFIDENCE

THE MOUNTAIN COMPOUND is entirely different from anything ever before introduced. Its compounds are several important medicinal qualities that no other article of the kind does and which renders it a restorative or a cure for removing DANDRUFF, ERUPTIONS, or DISEASES from the skin of the head.

Its powerful Tonic and Lustre qualities give great beauty and richness to the texture of the hair, and a dress unequalled. Men of Boston, Portland, Lowell and other places, have testified to a very great extent, of its admirable adaptation for dressing, softening and keeping the HAIR MOIST A GREAT LENGTH OF TIME—longer, much longer than anything else [illegible].

Every individual who has bought one bottle of this Compound speaks well of it, and buy several more, and the proprietor feels confident to recommend it from that fact.

☞ For testimony see small pamphlets.

**CAUTION.**

N B None genuine unless signed on the wrapper, H W Foster in his own hand writing, and also these words lawfully inscribed securing copy right, and printed on the back of the wrapper near the old—"Entered according to act of Congress, the year eighteen hundred and forty six by Horatio W Foster in the Clerk's office of the District Court of Massachusetts." Also unless there are impressions on the bottles blown in the glass of "FOSTER'S MOUNTAIN COMPOUND," it is not genuine.

### MY EAU LUSTRAL HAIR RESTORATIVE.

This universally approved and admired article free from ardent spirits, pungent essential oil and other deleterious materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Hair washed with this Extract soon becomes pleasingly soft and luxuriant in its growth, and it will positively bring in New Hair on Bald Heads by its use, and hair that has been made harsh and is turning grey or falling out by the use of spirit or other improper preparations will soon be restored to its natural color and brilliancy by a few applications of the Eau Lustral.

It is a preventive against Baldness and an infallible cure, in all the affections of the Skin on the Head, as Dandruff, and for preventing the falling off of the Hair, and turning grey.

It is the [illegible] extract of some plants salutary for the hair, endowed with properties so highly cleansing that it disengages the epidermis and the pilary tubes of the corrosive action of the perspiration and of the dry and hard particles that it deposites. This preparation purifies the hair, gives to it a beautiful gloss and softness, and an agreeable and vivifying perfume.

Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. The experience of fourteen years practice—an extensive collection of rare works, documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment.

L S — At the District Court for the Eastern District begun and holden at Bangor within and for the County of Penobscot on the first Tuesday of January, being the fifth day of said month A D 1847.

To Roswell Fitts, Samuel B Stone, and Samuel K Hart, all of Brewer, all in the County of Penobscot, three disinterested persons. *Greeting.*

WHEREAS, HARVEY D CLARK of Brewer, in said county, Yeoman, shows by his petition entered in this Court at this term in this county, that he is owner in fee and as tenant in common with some person or persons to him unknown of the southeasterly part of lot No five in the third division of lots on the northeasterly side of Kenduskeag road in said Brewer and containing thirty acres by estimation, be the same more or less, it being the remainder of said lot after leaving ninety acres belonging to Nathan Clark and improved by your petitioner and are the same thirty acres of which an undivided half was conveyed to Joshua Chamberlain, Jr, from Edward H Burr, by deed dated April 10th, A D 1835. Your petitioner alleges that his share of said thirty acres is one half thereof, that he cannot improve his said share thereof to advantage while the same remains in common. … terms indicated by Senor Atocha in his … to Rejon as the propositions of the United … to Mexico to obtain a peace, we find in … Diario del Gobierno, of Mexico, copied from a paper of Guadalajara, without a word of dissent. They are as follows:

THE PLAN OF PEACE.

A commission shall be named to arrange the conditions. This commission shall be composed of Messrs Benton and Buchanan, and one member of Congress of the opposition, and two Mexican commissioners. The commission shall assemble whenever the government of Mexico may appoint.

The United States demand the parallel of 26 degrees of latitude from the Gulf of Mexico to the Pacific, as the dividing line.

The United States will pay fifteen millions of dollars in cash for the territory occupied, solemnly engaging not to exact or claim any expenses of the war. These expenses are estimated at about thirteen millions, consequently, the United States consider that they would pay twenty-eight millions of dollars for the territory described.

The United States guarantee that it will never consent that any territory or State of Mexico shall be annexed to the American Union, it equally guarantees the sovereignty of Mexico, especially her territory south of the parallel of 26 degrees.

The United States will place ten thousand men, infantry and cavalry, upon the boundary line, to prevent smuggling and the incursions of the Indians.

The United States engage to adjust all disputes about old claims—we give the remainder of the sentence in Spanish—[*por el territorio cedido por tierras, deudas estrangeras, &c.*]

An alliance offensive and defensive shall be signed between the United States and Mexico to repel all European intervention in the affairs of America.

Atocha is authorized by the government of the United States to adjust the terms of the treaty of peace.

### The Letheon.

The Newburyport Herald says: "We saw some days since, at Dr. Smith's rooms, a lady, under the influence of the vapor of ether, who had *twenty-nine* teeth and roots extracted, preparatory to having a new set. This is the largest number we have ever heard of, and every one is aware of the severity of the operation. Of the removal of twenty-eight the lady was wholly insensible, one she felt slightly, the influence of the vapor being partially exhausted.—She has experienced no subsequent ill effects whatever."

Our well known fellow citizen, John O'Sullivan, was a few days since put under the influence of the vapor, and a very troublesome tooth root was extracted without the slightest pain.—He says, in his characteristic style, that he felt as happy as though in Ireland among his fathers!

☞ A correspondent of the N. Y. Sun writing from Mexico, says, that the clergy there, who clearly hold the balance of power, and represent at least nine-tenths of the people, are disposed to favor peace, and even make some sacrifice of territory to obtain it, on two conditions.

1st. The release of the mass from the oppression of their military leaders. They wish the army dissolved.

2d. They desire in some form a guarantee that the laws and constitution shall be sustained, and private property, including that held by corporations and the church, should be respected. This is prevented by keeping up a military despotism.

He further says that if we do not wish the entire destruction of the working classes of Mexico, who in fact have nothing to do with this war,—if we do not wish to fasten upon their necks an intolerable yoke for another generation, we must give no more money to their tyrants.

☞ The ship carpenters and caulkers in this city have published a card calling a public meeting of mechanics to be held at the City Hall on Saturday evening to consult upon the subject of limiting the hours of labor to ten each day. There are just two sides to this question. All who employ labor will be satisfied with ten hours labor actually performed. All who labor for others think ten hours' time is sufficient in which to do a day's work.

☞ Calvin L. Butler, Esq., every body knows Calvin, the antediluvian, who in the flood stepped in the Post Office while the water rushed in up to his waist for the purpose of stamping the paid letters, well, Calvin has arrived in town from New York, just as sharp as a knife and every way just like a knife. He is delighted with New York and will return after a little recreation with his down east friends.

### Webster Meeting at Savannah.

The citizens of Savannah, without distinction of party had a meeting on the 13th inst., and appointed a committee of thirteen to extend the hospitalities of the city to Hon. Daniel Webster on his arrival in that place, and also to invite him to a public dinner at a day to be designated by his convenience.

### Arrival of the Princeton.

The U. S. Steamship Princeton, Commander Engle, twelve days from Pensacola, having on board Com. David Conner, late Commander of the naval forces in the Gulf of Mexico, arrived at Philadelphia and anchored off the Navy Yard. The Princeton did not touch at Havana. Her officers and crew are all well.

☞ The Governor of Missouri has been called upon for another regiment of mounted volunteers, to serve during the war with Mexico. A part of the regiment, it is understood, and if necessary the whole, are to be employed in establishing forts on the route to Oregon.—The residue, if not thus employed, will be sent to Santa Fe.

☞ The locofoco deputy, Aaron Haines, may be assured that we understand the low game he is playing. He certainly serves very mean masters and for very unworthy ends, when he occupies his time in posting up infamous and lying hand bills.

☞ Polk and Santa Anna are both doomed to be whipped in every fight. The Albany Journal says the Whig victories simultaneously achieved in Albany, Brooklyn, and New York, are appropriate and gratifying corollaries of those won by Generals Taylor and Scott at Buena Vista and Vera Cruz.

☞ There has been a very comfortable rain here. The travelling is now very heavy. The ice has left our harbor and is at the time of this writing slowly rooting its way down river. It will worry through Cicaty's narrows in a day or two at farthest and then we shall have clear navigation.

☞ Mr Amos Brown has resigned his place as Teacher in Gorham Seminary, on account of ill health, and Mr Edward P. Weston, favorably known as the Principal of Lewiston Fall Academy, has been elected as his successor.

☞ The Skowhegan People's Press states that every house and part of a house fit for a separate tenement, in that town are occupied and that several dwellings are needed there to supply the demand. Rents are getting high, and capitalists must provide for the growing wants of the town.

☞ Our thanks are due to Col Maxwell, conductor on the Rail Road, and also to the officers of the Governor for Boston papers received yesterday, in advance of the mail.

☞ There was a grand illumination in Philadelphia, on Monday evening, in honor of the late victories in Mexico.

☞ Rev Charles Robinson, of Lenox, Mass., who has been for sixteen years a missionary in Siam, recently died on his passage home.

☞ Rev Russell Streeter of Boston has accepted the invitation of the Universalist Society in Portland to become their pastor.

### General Taylor's Nomination, and "the Democracy."

The New Orleans Commercial Bulletin of the 9th instant says, in the course of an article on General Taylor's nomination for the Presidency:—

"Our democratic friends, who so strongly object to his nomination as a Whig candidate, must not suppose us so very ignorant of the movements among the wire-pullers, to bring him out as a *democratic* candidate—of the extensive correspondence all over the country, having this object in view—nor of the letters with which Gen. Taylor is inundated at this time, on that subject. Who has not heard leading Democrats of this city announce their intention to bring him out as their nominee? and is not a portion of the press here, even now proclaiming him a Democrat? How useful it would have been to have sent him through the country as a Democratic nomination, with a view to have the *prestige* of his name for the Congressional elections, which are to take place during the summer and fall."

From the Charleston Mercury.

### From Vera Cruz to Mexico.

As there are many inquiries respecting the distance between the cities of Vera Cruz and Mexico, we obtained by the kindness of a friend the following schedule of distances on the route:

Leave Vera Cruz for Jalapa, on Tuesday evening, at 11 o'clock P. M. distance about 70

Arrive at Jalapa on Wednesday between 5 and 7 o'clock, P. M. Leave Jalapa on Thursday morning, for Perote, distance 55

Between Jalapa and Perote you go up the mountain untill you reach a height of upward of 9,900 feet above the level of the sea, arrive at Perote in the evening. Leave Perote on Friday morning at 3 o'clock, A. M. for Puebla, distance 95

Arrive same day at Puebla at 4 o'clock. P. M. leave Puebla on Saturday morning at 4 A. M. distance 80

Arrive same day in Mexico, at 4 o'clock P. M. About half way between Puebla, you descend for upwards of 2½ miles at a rapid gait 300

### Lieut Col. Clay.

The New Orleans Picayune says:

"His last words were of his father. When he was shot down a second time he drew a brace of pistols from his belt, handed them to Capt Cutter and requested him to deliver them to his father with this message: 'Say to him that he gave them to me and that I have done all that I can with them and now return them to him.' Here the enemy came thick around him, and these were the last words he was heard to utter."

The President of the United States has appointed Mr C. M. Haile, whose correspondence has made his name familiar to our readers, to a First Lieutenancy under the ten regiment act. Mr Haile, we understand has accepted this appointment, though it was hoped by his friends that his military education and experience would commend him to a higher grade in the service.—[N. O. Picayune.

☞ A lively business was doing last week upon the shores of Long Island in capturing whales, which made their appearance there in strong numbers.

☞ The Philadelphia North American closes an article on the atrocities of War, with the following remarks, which express the mind of a great mass of our countrymen of all parties:

"We find especial reasons for opposition to the present war; and regard its commencement as the most frontless of wrongs, its continuance as the heaviest of calamities, and its termination as a consummation to be labored, struggled and prayed for, by every good man and good patriot in the land. It arose in an usurpation by the Executive, during the session of Congress, of the war making power. There was no cause of war that would have been recognised as such by Congress; and the President, in his hot haste for war, dared not to ask its sanction, until after he had involved the land in its horrors. It was commenced by invading a territory that never belonged to, and never was possessed by, either Texas or the United States.—That invasion was unnecessary, and therefore unjustifiable. If there were excuse for the war, there is none for the measure which opened it. But what excuse is found for the war itself? Mexico did not pay her debts. She did not because she could not—she never repudiated them—and if she had, it was no sufficient cause for hostilities. It is alleged that she had committed long time ago aggressions; but they had been settled by treaty.—These are but pretexts. The real motives of Mr Polk were the acquisition of political popularity, and of territory for slave States. It was formerly denied that the war is one of conquest; but it is now generally and formally avowed and justified. With such an object, the measure is a voluntary abandonment and disclaimer of justice and virtue; and must mark out the path for a career like that of Rome—in deed shrieks, crimes, and a false glory—a life of wrong, an age of suffering, and a death of torture and shame.

"We hold it to be the duty of the people so to act, at the ballot box, as to check this evil—to redress this wrong—to accomplish an early peace upon just terms, such terms as were contemplated in Judge Berrien's resolutions. If this be opposition to the war—we repeat that we are opposed to it, and let Locofoco so make the most of it.

"These views we have urged time and again; and we now reiterate them because we would have no one believe that, in rejoicing over the victories of our armies, we have lost sight of the origin or character of the war or changed our opinions or purposes in relation to it. And such, let us add, are the views of thousands of patriots in our army. But while we believe that it is the duty of the people, in the exercise of their constitutional authority, to discontinue this contest, we also believe that, so long as the act authorizing it exists as the supreme law of the land, it must be obeyed. So long as the war is the country's, it is ours. While our armies are in the field, our hearts are with them—our spirit mounts with them the breach—shares the tumult and agony of the struggle; and our shout goes up with theirs over the victory—for it is our country's. We would prosecute the war with vigor while it exists, give men, money, lives, fortunes; but we would, by every exertion in our power, every appeal to the reason and virtue of the people, endeavor to close it at the earliest moment. We rejoice much for its successes—but we mourn more for its calamities; we illuminate for our victories—but with a tenfold greater joy would we illuminate for a peace—a peace that would restore Mexico every inch of her territory beyond the Rio Grande, bind up the bleeding wounds of the nations, and knit them again together, and for all time, as sisters."

### Developments at the South.

Virginia holds her Election for Members of Congress and a new Legislature on Thursday.—The struggle will be warm in particular localities but no other result is anticipated than a triumph of the Slave breeding and Slavery extending policy which made Polk President, annexed Texas to the Union, and thus kindled the flames of wanton, wasteful, sanguinary War. Yet we hope for a gain of two or four Whig Members of Congress.

Our present object, however, is to call the attention of the Northern self styled Democracy to the battle fought and the weapons employed by their brethren in Virginia. The Richmond Enquirer, edited by two sons of Mr Polk's own Editor at Washington, is emphatically the mouthpiece of Virginia— that is, of the usually dominant party in Virginia. That paper some weeks since openly declared that no supporter of the principle of the Wilmot Proviso could receive its support, or that of the Southern Democracy, for next President. We intended to quote its article at the time, but a crowd of other matter prevented.

In the last Enquirer, we find the same spirit developed in a still more ominous manner. The Richmond District is the theatre of a very animated Congressional canvass between John M Botts, Whig, and Walter D Leake, Loco. Mr Leake everywhere proclaims that no friend of the Wilmot Proviso can be supported for President in Virginia, and urges upon the Slaveholders that Mr Botts cannot abide the test of devotion to their interests. Here is the Enquirer's language:

"We sound the tocsin. We warn the voters of this District that on the Wilmot Proviso Mr Botts is not safe! He refuses to come out plainly and unequivocally upon the subject. He will not say that no man in favor of the Wilmot Proviso shall receive his support for the Presidency."

Mr Botts replies to this charge fully and promptly. He avows that his way to avoid all trouble with regard to the Wilmot proviso is to take no territory from Mexico in making peace with her. His own view is that each State, present or prospective, is the sole judge as to whether or when Slavery shall be established or abolished within its borders. But as to the test required of him, he says:

"I expect to vote for the candidate of the Whig party against any and all the candidates of the Loco Foco party and will give no pledge that will deprive me of this privilege."

The Enquirer and its candidate seize upon this avowal, and are making the most of it to secure votes against Mr Botts. And, in reply to an intimation from Mr Botts that they are using it as a mere weapon of offence against him, the Enquirer says:

"It has been a favorite item of policy with many Whigs to assail the Democratic party on that subject, and to charge them with willingness to support a man for the Presidency who was in favor of (the Wilmot Proviso) This charge has been fully refuted and denied by our public men throughout Virginia. No one belonging to the Democratic party is a candidate for Congress who does not repudiate the idea of supporting a Wilmot Proviso man for President."

We call the attention of the Northern allies of Virginia and the Enquirer to this subject. Dare the Evening Post, Albany Atlas, Boston Post, New Hampshire Patriot, Augusta Age, Portland Argus &c &c. allow their readers to understand clearly the issue made up against Mr Botts by their Virginia brethren? Dare they let us know what they think of it, and how, in their judgment, it must and will be met by 'the party' in the North? If nobody who approves the Wilmot Proviso can be supported for President by the slaveholding Democracy, can any opponent of that Proviso be supported by the mass of the Northern wing of that party? May we be permitted to know?—N Y Tribune.

### The Foundations of Character.

The foundations of character are laid in early life. Then it is (what a solemn announcement) that the *germ* of every predominant principle is implanted, and the *embryo* of every despotic habit conceived. The great question, 'What manner of a child shall this be?' what shall be his distinguishing traits; what shall be the general aspect of his career; shall it be darkened by crime or illumined by virtue, shall it end in ruin, or be consummated in glory? is determined, I had almost said, before the child leaves its mother's arms. And the foundations of character once laid down can never be taken up. The first impressions which the soul receives, are like figures formed in the clay, or characters cut on the sapling; time will only dig them deeper and fix them firmer.

This one thought invests the work of the parent or educator with awful interest. What are they doing? Storing the mind, disciplining the understanding, training the fancy or its future flights? O, no, something more than this. They are laying the foundations of character.—The words which have fallen from their lips this day, may settle the destiny of the child for time and eternity. The truth or the error which they have day uttered may, make him a philanthropist or a miser, a patriot or a traitor, a being whom all will love and bless, or all will hate and curse.

### A Heart Rending Case.

A decent looking young Irish woman, named Bridget Sherry, who arrived on Thursday last from Liverpool, in the ship Charlotte, was found in an alley on Saturday night, with an infant nine days old at her breast, in the utmost state of destitution. Since her arrival here, she has been without food and shelter for herself and babe; each night sleeping in any retired alley that she could find. She was taken to the Fourth Ward station house where every attention was paid to her and medical aid obtained by Captain Smith. Yesterday the Coroner, held an inquest upon her child, it having died in her arms at a late hour on Saturday night.—[N. Y. Express.

**FOSTER'S MOUNTAIN COMPOUND**
seems to be the only article for the Hair, in which the public has placed implicit confidence. Its "powerful tonic" and peculiar efficacy in the reproduction of the hair, aside from its virtues in giving richness and a *lasting moisture*, longer than any thing else can, give it a precedence with both ladies and gentlemen, over every other article heretofore invented for the toilet.
Nothing is like it in appearance or composition. It is adapted pathologically to the cure of all diseases of the hair and skin. An essay with an illustrative drawing, showing the structure of the skin and hair, with directions, is enclosed with each bottle. Sold by Messrs. A. P. Guild and Geo. W. Ladd, (Druggists,) only agents.

**HALE'S PURE RUBBER MACHINE BELTING,**
For Sale by LUKE C. CHILDS, 67 Water St.,

THE above superior article is fast superceding the use of Leather Belting, as for most purposes it is in every way better. Its good qualities are that no degree of moisture will affect it, and it will bear almost any degree of heat. It is of equal width and thickness throughout, and requires only one lacing in the longest belt. Practical mechanics, who have used this particular manufacture, think there is a gain of 15 to 25 per cent in the movement of the machinery, as it is perfectly flexible, and runs with much less strain upon the pulleys and drums.

The following certificate is from one of the most respectable citizens of North Kingston, in Rhode Island
North Kingston March 3, 1846
Dr. Wm Bailey—Dear Sir —I have at various times considered of my great indebtedness to you, having been, as I well know, through your instrumentality restored to a perfect state of health by your valuable extract of Sarsaparilla, through the use of which I have reasons forever to remember I have been cured of a severe disease of the liver and a general torpid state of the system ... and dyspepsia, I have from time to time tried various remedies, without any visible good effects, now, I am happy to say that your Sarsaparilla has cured me I am happy to hear that you are as actively engaged as ever in the sale of your valuable medicines,—perhaps I should say blessings—it would be more appropriate for such no one has done more to alleviate the ills that flesh is heir to than yourself If it were possible for bodily infirmaties to disappear from the face of the earth, I should deem your Sarsaparilla a panacea for every complaint But of one thing I am confident, that the time will come when your name will be breathed forth in accents of gratitude from every hill vale, hamlet and city throughout our country, when there will be a general thanksgiving for the benefits derived from your valuable extract of Sarsaparilla
I have within one week heard a celebrated Elder of our town proclaiming, in terms of the highest commendation, the extraordinary virtue of your Sarsaparilla He had himself known it to cure people of his acquaintance, who had been pronounced incurable by physicians I am, my dear sir, Respectfully yours

## DEAFNESS CAN BE CURED

COOPER'S ETHEREAL OIL—A prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient, is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of deafness.

Persons who had been deaf for 10, 15 and even 20 years have been permanently cured by using this oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the inventor claims for it the distinction of an Infallible Remedy, in all cases, when the Ear is perfect in its formation.

For further particulars and evidence of its great value, see printed sheets, in the hands of Agents.

Sole Agent for Bangor, G W LADD, Druggist.

Sold also in Frankfort, by N GILMAN M D, Druggist.

## THE GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that ... of Medicines denominated "PATENT," should ... to merit of inculculable and enduring ... to the human family Suppose, for example, ... of talent, long and laborious observation ... and great medical learning and experience are brought to bear upon the invention and manufacture of ... Who may not this long devotion to this ... also be crowned with the success ... attends the sacrifice of similar talents and toil in other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man. *Twenty five years* devotion to any one subject will give a mind of ability the mastery over it. This labor has been bestowed upon the

### Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science.

It will be seen in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The mariner's compass, for instance, was not invented until in the "fullness of time" it was needed. The *loadstone* always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled. It was then conferred to the ... of the adventurous sailor enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks.

So with the discovery of the New World, upon whose shores was to arise this Giant Nation to a power and glory, a mass on far beyond the conception of the wildest fancy. The Old World had reached its highest degree ... the "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus from the forecastle of his frail and leaky vessel found it! So with the invention of printing, of steam, of the magnetic telegraph. Each of these had its own "fullness of time," ... fixed, distinct and Providential.

IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. Most beautiful are the illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand.

That this principle is as true of Medicine as of Physical science is clearly shown in the

he requires that his disciples and his patients ... *make pure the life current* that leaps through the veins and arteries, before they can hope for a PERMANENT cure. ... he can give them and so can others, all bright and joyous health must come from a pure blood.

But a most serious thought here comes ... countless are the impositions which are practiced upon the public by pretenders, and so numerous indeed are the medicines advertised, that the reader may be slow to believe in this Great Remedy. A word, therefore, on this point.

In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may now be, that paper will convince you. Thousands *have been* convinced in every State and Territory in the Union, among them distinguished statesmen, jurists, clergymen, physicians ... The mere enumeration of ... names would fill this page. Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

In all bilious or chronic disorders, these Pills achieve the most wonderful triumph. HERE THEY DEFY COMPETITION. And as the susceptibility of the American constitution is to these diseases, they are aptly styled by some

## The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES, CLEAN AND STRENGTHEN THE STOMACH AND BOWELS, MAKE THE URINE FLOW HEALTHILY AND CLEAR, AND TO GIVE TONE AND STRENGTH TO THE SYSTEM.

It is impossible within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills. But REASONS DO EXIST, which have abundantly satisfied the minds of the discerning in this country, and among them the most accomplished Physicians, Jurists, Clergymen, and private citizens, male and female.

NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented, but a certificate in these days is scarcely worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however be given.

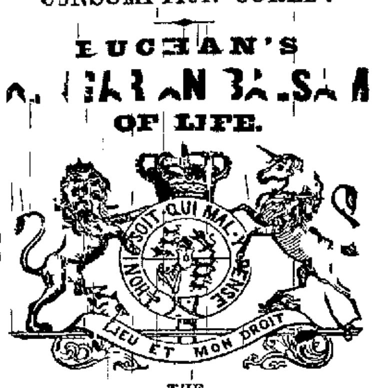
## CONSUMPTION CURED!

## BUCHAN'S HUNGARIAN BALSAM OF LIFE.



THE

## GREAT ENGLISH REMEDY
### For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable and effectual curative of those formidable complaints, now known to the civilized world.

Three years of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country, as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, coughs and inflammation, that can possibly be used.

*SPITTING OF BLOOD*! This frightful symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient ... and restores those vital organs, the lungs, to sound and healthy condition.

*REMEMBER THIS*. Spitting of Blood always arises from a tendency to Tubercular disease and if not checked, at the outset, will sooner or later determine in death. A person who raises blood once will raise blood again, unless a proper curative is immediately employed.

*PAIN IN THE SIDE*! This distressing symptom of Consumption arises from inflammation of the Lungs, or the Membrane called the Pleura, or from Bronchial affection of the air passages. In either case it is a very dangerous indication of disease. It proves a full and free breathing and wears away the natural strength of the system. The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan, which is entirely vegetable in its ingredients, and perfectly harmless in ...

*LIVER COMPLAINT*. In cases of Consumption ... always more or less affected, and also the Spleen, Pleura and small intestines. On dissecting consumptive patients, tubercles are often found ... these organs particularly upon the Liver, which also becomes fatty, oily and swelled. The effect of the English Balsam in diseases of the Liver, especially ... nature is direct and powerful ... *simple use of the Liver, unattended by Consumption ... speedily cured by its use.*

*WINTER COUGH*. The harsh, dry hacking winter cough which afflicts old people, and invalids in a low state of health is happily affected by the *Hungarian Balsam*.

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid mucus, and other ... purifies and animates the blood, improves the secretive power of the Liver, Spleen, and other organs, and ... the digestive organs, and imparts new life to the weak and emaciated system.

*BRONCHITIS*. Bronchitis, Difficulty of Breathing, harsh cough ... expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*.

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and often the Lungs and thereby to induce the worst form of Pulmonary disease. Be warned in time, ye afflicted and employ this valuable remedy.

*TUBERCLES ON THE LUNGS*. The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure tubercles on the Lungs. Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect ... fact so confident is the American Agent of its power to cure the worst form of this disease that ... he has frequently stated that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and confidently rests a trial in the *worst of cases*.

*EXPECTORATION*! Free Expectoration the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough, which is so distressing, is simply the result of a desire to expectorate and as long as ... matter exists in the air passage it will continue to irritate the Membrane and provoke a cough. Coughing is an attempt to throw off this matter, and expectoration gives great relief. Inability to expectorate in the latter stages of Consumption is the cause of death.

The Hungarian Balsam is a *great Expectorant*—it dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, it its expectorant quality alone be considered.

*SPASMODIC ASTHMA*. Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy as readily as any other form of Pectoral disease.

*CONSUMPTION*! Consumption has been graphically described as a "*Shrinking of one's self*." The Hungarian Balsam by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion*.

Before its delightful influence, all chills, fever, night sweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun. This is no delusion but demonstrable fact, sustained by incontestable proof from all parts of the country.

*BEWARE TO DAY*. Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles at only one dollar per bottle.

## READ THE FOLLOWING.

From the "Western Star," a religious periodical, published at Jacksonville, Illinois.

"DOWNS' VEGETABLE BALSAMIC ELIXIR—We are not in the habit of puffing medicines in our columns, but having used the above medicine in our family with gratifying success, and having persuaded from all we can learn concerning it, that it is an excellent medicine for Coughs, Colds, Consumptions, Whooping Cough, Asthma, and diseases of the Chest and Lungs, we do not hesitate to give it a cordial notice.

Elder Downs, an acquaintance of ours, was himself an invalid for a long time, and was thought to be far gone with the consumption, a disease hereditary in his father's family. This remedy was the means of restoring his own health, and multitudes have testified to its salutary effects upon themselves and families."

From the Missisco (Canada) Post, of April 8, 1846

"REV. N H DOWNS' VEGETABLE BALSAMIC ELIXIR, for all diseases of the Lungs and Lungs— From the abundant testimonials of those who have made use of this preparation we can recommend it to the public with the utmost confidence ... the danger also of neglecting ... incident to the chest and lungs ... every person subject to such complaints to possess themselves of this valuable remedy."

Sold in Bangor by D BUGBEE and G W LADD of whom pamphlets may be had giving a full description of the medicine.
